

**NATIONAL SOCIETY OF BLACK ENGINEERS
UNIVERSITY OF HOUSTON-MAIN CAMPUS
CHAPTER**

**CORPORATE SOLICITATION PACKET
2018-2019**

Greetings,

I am writing you today on behalf of the National Society of Black Engineers (NSBE) - University of Houston Chapter. Our overarching mission is: **“To increase the number of culturally responsible black engineers who excel academically, succeed professionally and positively impact the community.”** We pride ourselves on our family environment and our members’ dedication to live out the NSBE mission.

This year our goals are to continue developing our members professionally, grow their leadership skills, and provide aid to our international students. We will offer leadership opportunities outside of the traditional chapter executive roles (CEB) roles, through committees and public speaking opportunities. Through our collaboration with The Henry Foundation, we will offer scholarships to our international members. Lastly, we will continue reaching back into the community to inspire the youth. Through intentional programming, we will expose our members to the endless possibilities available to engineering students.

My request today is to partner and collaborate in supporting programs that extend beyond the walls of the university. These programs are integral to professional development and preparing students for life after college. One of the most influential and network infused events we attend annually is the NSBE National Conference. This is a very costly event where most aspiring engineers are only afforded the opportunity to attend through your sponsorship.

In addition to the National Convention, your contributions will fund our programming during the school year. These intentional programs have supported the development of our members and led to us receiving the National Society of Black Engineers Chapter of the Year for two years in a row!

We have several tax-deductible sponsorships listed on page 4. Our appeal to you is to take advantage or contribute according to your capacity; your partnership is valuable and will help in sustaining the events listed and afford the opportunity for underprivileged students to attend these prolific and career changing events.

On behalf of the officers and members of the National Society of Black Engineers at the University of Houston, we thank you for your time and support of our organization as we look forward to a successful year.

Go Coogs!

Annual Events

National Convention: This is a UH NSBE subsidized event that our members can attend. This year located in Detroit, MI, the convention offers technical seminars, leadership training, a career fair, and networking events. UHNSBE is always represented in large numbers, and many members obtain internships/co-ops and establish nationwide networks.

A Walk for Education: This is an annual NSBE community outreach event in which members walk door to door raising awareness about engineering with underprivileged children and parents in nearby neighborhoods. The children are invited to the neighborhood's community center where lunch is provided and engineering activities are conducted.

Fall Regional Conference: This is a regional event UH NSBE sponsors members to attend. This year located in Dallas, TX, the conference offers access to career and leadership development workshops, a career fair, networking socials, and technical seminars.

Annual Award Banquet: This is an event to celebrate the cumulative year accomplishments with alumni, members, and company representatives. Scholarships are presented and active members, officers, and partners are acknowledged.

Donation Basketball Game: This is a basketball game of current UH NSBE members versus UH NSBE Alumni. Each candidate is required to bring school supplies. All proceeds are donated to a local elementary school.

Sponsorship Packages

Platinum Sponsor: \$5,000 and above

- Option to host a general meeting in the Fall *and* Spring semesters
- Company logo on chapter website
- Company logo on member t-shirts
- Amenity package full of UHNSBE gear
